

Being a Good Digital Citizen

Use these questions as a gauge before posting anything online:

1

Would I like for someone to share that about me?

2

Do I know this person well enough to know if he or she will mind me sharing this information?

3

Would I do or say this in-person, or if my family were watching?

4

Am I doing this because of an emotional reaction?

5

Am I breaking the law or violating school policies?

6

Does this behavior really represent who I am?
